Relevant Experience

Full-Stack Web and Blockchain Developer @ Freelance
Jan 2020 - Present // Remote

▷ Contracted to make web apps, custom APIs, and blockchain (solidity) smart contracts

▷ Work with a variety of different languages, frameworks, and content management systems such as JavaScript, TypeScript, React, Solidity, Node.js, etc.

▷ Communicate and collaborate with multi-disciplinary teams of engineers, designers, producers, clients, and stakeholders on a daily basis

Product Software Engineer @ learnEnglisch
Dec 2016- Nov 2019 // Lubeck, Germany

▷ Led prototype development of cutting-edge Python, Tensor-flow, Machine Learning model, with German text oriented Optical Character Recognition for a real-time auditing concept

▷ Doubled sign-ups of new business by implementing agile code modularity making faster customer engagement possible

▷ Interfaced with clients on a weekly basis, providing technological expertise and knowledge

Systems Tech Lead @ Northwestern Kellogg School of Management
June - Oct 2016 // Evanston, IL

▷ Develop custom middleware scripting for departmental migration to SaaS (software as a service) cloud

▷ Negotiate and align stakeholders with university IT teams to develop platform UI/UX, roadmap, business logic, and in-house software tooling

Systems Associate @ Northwestern Kellogg School of Management
Feb - July 2015 // Evanston, IL

▷ Developed custom dashboards for all +$5 Million dollar cash flows and assets, creating improved data analysis for Dean of the university

▷ Proposed and implemented scalable solutions to issues identified with SaaS and cloud services and applications responsible for communicating with APIs and 500 customers

▷ Interfaced with designers and other developers to ensure thoughtful and coherent user experiences across B2B and internal client portals

Skills

Programming Languages
JavaScript, TypeScript, HTML, CSS/Sass, GraphQL, Solidity, Kotlin, C++

Libraries & Frameworks
React, Gatsby, Node.js, Express, Next.js, Redux, HardHat, Ethers.js, Three.js, MongoDB

Tools & Platforms
Git, Linux, AWS, Webpack, Vite, Netlify, Heroku, Wordpress, Docker, Firebase

Design
Figma, Adobe XD

Education

University of Maryland
College Park, MD

Masters of Business
Concentration in Technology Innovation

Projects

Prime Crypto
Web 3.0 Dapp with custom Solidity smart contract to transfer Ether to friends, family, or smart contracts on the Ethereum blockchain.

Blockheads
API and Redux driven Blockchain and Crypto news dashboard with live pricing and dynamic charts.

Interests
Photography, Skateboarding, Traveling Kayaking, Camping, Guitar
